A Letter from the President...

Spring 2007 now seems to be arriving at last! Our club is still in full swing and over the next two months we have lots of activities planned to round off a very successful year. We have continued our club's social activities, increased our membership, and achieved our goal of increasing our endowment by \$25,000.

The Spring Luncheon is always one of the highlights of the year and in 2007 we are returning to the Champaign Country Club. My friend Deana McDonagh, who is a member of the School of Art and Design, is our featured speaker. In her presentation she will focus on the way modern design is not merely functional, but also satisfies our emotional needs. Deana is a lively and interesting speaker and I hope you will join us to gain a new perspective on the design of everyday products. In addition, we will be having a silent auction once again, so please bring some of your spare treasures to share!

The Spring Luncheon is also the time to hand over the gavel to Ann Long and welcome the New Board, who will be leading our club over the next year. Thanks to the efforts of Barbara Garlick and the Nominating Committee, we have a full slate for next year. I would like to thank all of those members who have volunteered to serve.

If you don't have Spring Fever yet, you can catch it by taking one of our Spring Tours. And if you do have it, celebrate it by taking one of our Spring Tours! Lunch in quaint Monticello followed by a leisurely stroll and picturesque tour of Allerton House on Friday, April 6th, or spruce up your wardrobe and your home with a visit to Woodfield Mall and IKEA on Thursday, April 19th.

Newcomers' are also finishing the year with a bang! Spice up your life with the dinner on April 6th or join the End of Year Party on April 20th. Whether you are new to the club or new to the area, I hope you had fun this year and made new friends.

I am looking forward to seeing you all at one of our upcoming events – the Spring Luncheon, Newcomers, or on a tour. Be active; be happy!

Cinda

Revisiting Your Material Landscape

Featured Speaker Deana McDonagh

Associate Professor of Industrial Design at the School of Art and Design

Modern design is less about generating products and more about creating satisfying experiences for the user. This presentation will focus on the products that we surround ourselves with and how they contribute to our experiences. Products need to satisfy both functional and supra-functional needs. Prof. McDonagh joined the faculty in 2004. Her research focuses on design, empathy and emotion. She is particularly interested in ways in which our material landscape and products can satisfy needs beyond the functional. She was formerly on the faculty at Loughborough University (UK).
